

1. Prend une feuille rectangulaire

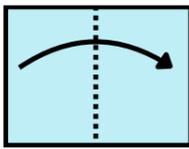

2. Plie en deux la feuille dans le sens de la longueur

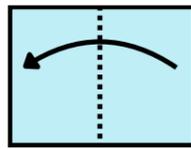

3. Pivote la feuille de 90°  
Le plis doit être en haut

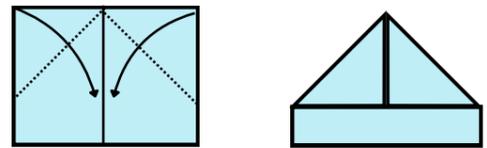

4. Pliez de nouveau en deux la feuille

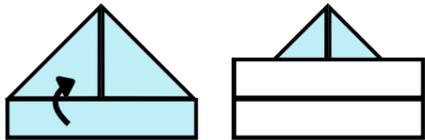

5. Dépliez le dernier plis

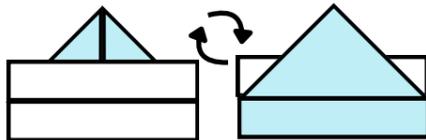

6. Plie les angles du haut

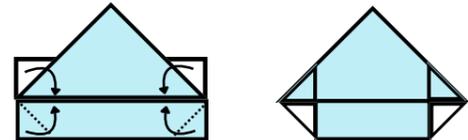

7. Plie la première bande du bas

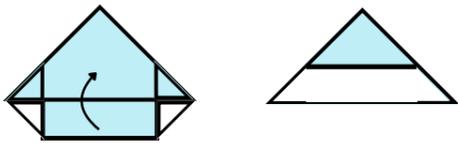

8. Retourne la feuille

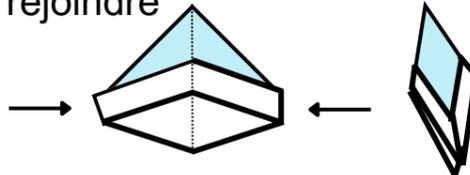

9. Plie les quatre angles

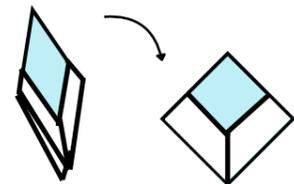

10. Plie la bande du bas

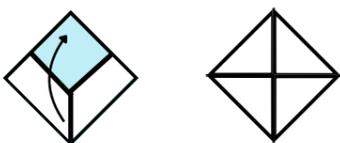

11. Ouvre et appuie sur les angles, pour les faire se rejoindre

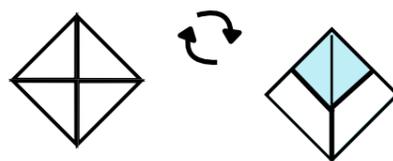

12. Tourne d'un car de tours

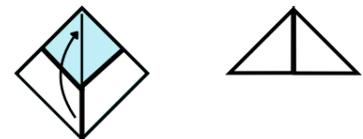

13. Plie le bas vers le haut

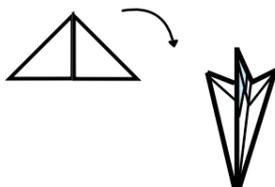

14. Retourne la feuille

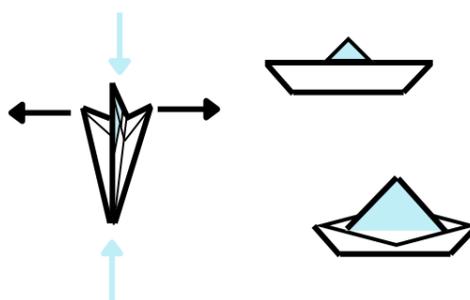

15. Plie le bas vers le haut  
Tu as un triangle

16. Tourne d'un quart de tour la figure

17. Ouvre et tire sur les pointes (flèches noires) tout en appuyant en bas (flèches vertes)
